#### 4 (1) (A)

Increase in the gap between Supply and demand of energy is creating more dependency of rural sector on fossil fuel and firewood. Hence, it is necessary to provide/supply sufficient energy to rural sector from conventional and non conventional energy sources. Further mass awareness about energy conservation will go a long way in saving power which can be used for other developmental purposes. Realising this Central planning commission under sixth Five year plan initiated Integrated Rural Energy Scheme.

MGIRED serve as a training centre on Renewable Energy for Four states namely Karnataka, Andhra Pradesh, Tamilnadu and Kerala and also on union territory of Pondicherry (South Indian States).

#### Objectives of the institute are as follows:

- To impart training to plan, implement and administer manpower at village, block, district, state and national levels for Integrated Rural Energy Planning/ Programme.
- Development of course material for various training programmes at different levels on Integrated Rural Energy Planning/Programme.
- To develop and implement state-of-the art programmes in partnership with state and national stakeholders through best practices.
- To monitor various rural energy development projects and to develop suitable computer simulation models.
- To perform any other functions, incidental or ancillary to the above.
